NANNO STAR GREEN

Nannochloropsis gaditana for green water

NannoStarGREEN is a frozen algae concentrate for creating green culture water in marine hatcheries. It is highly effective, clean and easy-to-use.

- Optimal characteristics for Green Water technique
- Long suspension time without sedimentation
- Proven nutritional content ideal for larval fish needs
- Produced in non-marine environment
- Produced, packed and grown in the Netherlands in a GMP+ certified facility
- Frozen on-site using a special freezing process
- Long shelf life: 18 months when stored frozen

Instructions for use

Green water technique

- Defrost NannoStarGREEN in a fridge at max 4 °C in approx. 24-48 hours
- Use defrosted NannoStarGREEN within 4 days (stored in fridge at max 4 °C)

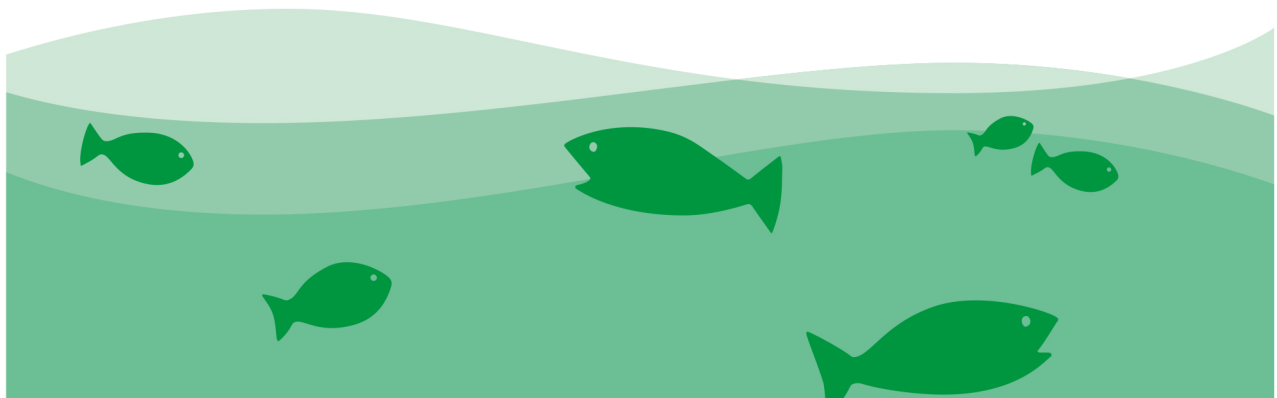

Dosage in ml per m3

Dark coloured tanks	Light level at surface of tank		
water exchange per hour	<500 lux	1000 lux	1500 lux
5%	30	40	50
7.50%	40	50	60
10%	50	60	70

- Figures are given in ml/m3/day and are for 24 hour illumination
- Divide this dose into at least 3 rations throughout the day
- Mix the dose with the same volume of water and blend the product for approximately 1 minute
- Light coloured tanks may require higher doses

Typical analysis (based on dry weight algae)

Lipids	17%
Proteins	54%
Carbohydrate	19%
Fibers	9%
Ash	10%
EPA	5%
Vitamin C	753 mg/kg
Vitamin E	165 mg/kg
Vitamin B12	87 ug/kg

**NANNO
STAR** **GREEN**

Nannochloropsis gaditana
for green water

Technical data

Description

Concentrated marine microalgae
Nannochloropsis gaditana

Ingredients

Microalgae, salt

Appearance

Viscous dark green liquid

Cell size

2 - 3 μm

Cell count

20-25 billion cells/ml

Dry weight algae content 15%

Packaging

Stackable UN food grade cans of 2.4 kilogram.
The product is shipped frozen and must be
stored in freezer at -18 °C directly after receipt.

Storage & shelf life

Shelf life is 18 months when frozen (-18 °C)

About us

AlgaSpring is the worlds largest producer
of the marine microalgae Nannochloropsis

Our products

AlgaSpring's NannoStar product line offers the
purest marine micro algae grown in water that
is extracted from an ancient subterranean
saline water well.

Our products have a high nutritional value
and assure a stable, clean, healthy and fast
reproducing zooplankton culture.

Feed safety

Feed quality is important for the continuity
of your production and the quality of your fish.
AlgaSpring ensures a certified GMP quality of
our products throughout the supply chain.

**AlgaSpring is also ISO22000 certified for
food safety for human nutrition.**
